COUNTY ACTION REQUESTED ON: Drainage Improvements – Valencia Street

HISTORY, FACTS AND ISSUES: Lowndes County paved Valencia Street in 2005 with surface treatment. At the time it was paved, drainage structures were built according to field observations. Over the past few years Lowndes County has experienced drainage issues at 6064 Valencia Street, at the intersection of Milano Street and Valencia Street.

Lowndes engineering staff along with Public Works construction crew can complete the project using a new drop inlet, storm pipe, asphalt curbing, re-grading the intersection, and an asphalt overlay for approximately \$5,000.00. The homeowner would be responsible for relocation of mailbox.

Alternatively, the Lowndes County Engineering Department has studied this area and developed a drainage improvement plan. This will include the installation of one (1) new drop inlet and storm pipe, fifty (50) feet of traffic bearing trench drain, re-grading the intersection, and asphalt overlay. Lowndes County requested quotes from three (3) contractors. These quotes are attached:

- | | |
|----------------------------------|--------------|
| 1. James Warren and Associates | \$ 18,000.00 |
| 2. Southland Contractors | \$ 30,335.00 |
| 3. Dunmon Construction Co., Inc. | \$ 28,800.00 |

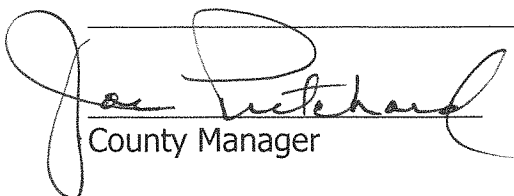

OPTIONS: 1. Hire James Warren and Associates for the drainage improvements on Valencia Street.
2. Board's Pleasure

RECOMMENDED ACTION: Board's Pleasure.

DEPARTMENT: Engineering

Department Head: Michael B Fletcher

ADMINISTRATIVE COMMENTS AND RECOMMENDATION:

County Manager

Action by Board: _____
