COUNTY ACTION REQUESTED ON: LAS Aerators

HISTORY, FACTS, AND ISSUES: Aerators are utilized at the LAS aeration ponds to provide oxygen and mixing. There are major ragging issues with the aerators currently being used, causing electrical component failure due to overloading. Staff recommends the Board of Commissioners purchase two Aqua Turbo screweller aerators for \$30,534.00, from the Eshelman Company, subject to the following conditions: The Eshelman Company guarantees that the units will not fail due to ragging over a sixty-day trial period. At the conclusion of the sixty-day trial, payment for the units will be due net thirty days. Additionally, the county would incur \$1,150.00, in shipping costs. The Eshelman Company is the exclusive representative in Georgia for Aqua Turbo aerators.

- OPTIONS: 1. Approve Purchase of Two Aqua Turbo Aerators for \$30,534.00
2. Board's Pleasure

RECOMMENDED ACTION: 1. Approve Purchase of Two Aqua Turbo Aerators for \$30,534.00
