COUNTY ACTION REQUESTED ON: Storage Area Network with Sovereign Systems

HISTORY, FACTS AND ISSUES:

The current Storage Area Network (SAN) is nearing end of life with only one more year of available support. The support cost for one year is over \$78,000. If a new SAN is purchased the yearly cost with support is \$60,332.32 per year. The new SAN will be all new hardware and an increased storage capacity. The proposal is for a new SAN and maintenance for five years that will be on a four year lease with Sovereign Systems.
