COUNTY ACTION REQUESTED ON: Anti-Virus Software Lease

HISTORY, FACTS AND ISSUES:

Lowndes County's anti-virus software is no longer adequate for the current environment. The Information Technology Department has been evaluating anti-virus software for the last year. After careful concertation and research, the team has picked Kaspersky for the best fit for Lowndes County's computers and data center. The contract presented is as a three year lease. After the three years, the county would continue paying maintenance.
