The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Lowndes County for its annual budget for the fiscal year beginning July 1, 2013. In order to receive this award, a governmental unit must publish a budget document that meets the program criteria as a policy document, an operations guide, a financial plan and a communications device.

This award is for a period of one year only. We believe our current budget continues to conform to the program criteria and are submitting it to GFOA to determine eligibility for another award. Lowndes County has received this award for eight consecutive years.

The GFOA also awarded a Certificate for Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report (CAFR) for the fiscal year ending June 30, 2013. In order to be awarded this certificate, the government must publish an easily readable and efficiently organized CAFR that satisfies both Generally Accepted Accounting Principles (GAAP) and applicable legal requirements. This award is also for a period of one year only. We believe our CAFRs continue to meet the criteria of the program and will be submitting them to GFOA to determine eligibility for another award. Lowndes County has received this award for six consecutive years.

Honorable Chairman and Commissioners:

In accordance with O.C.G.A. 36-81-6 and the duties and responsibilities of the County Manager, I hereby present to you the annual budget for Lowndes County for the fiscal year ending June 30, 2015. This budget is distinguished from recent years by the changes that you as a board requested in preparation of this document. As you all are aware, the past several years have been very lean and conservative, focusing primarily on maintaining services with little impact on the taxpayers. Staff and officials are to be commended for the tremendous efforts in maintaining such a lean budget. However, after so many lean years, the wear and tear on equipment, vehicles and personnel was beginning to show and, with your instruction, we aimed to put together a budget that addressed some of these areas that were showing some wear.

Much planning and preparation goes into each year's budget. At the Annual Retreat, the Board determines the goals and objectives for the coming year. This sets the tone for the new budget year. Additionally, the County contracts for Pay-Plan Maintenance (determines any necessary shifts to the pay scale), a Merit Increase Plan (temporarily on hold), a Capital Improvement Plan (addressed primarily through SPLOST currently), a Comprehensive Plan, Transportation Plan and Water & Sewer Master Plan (all addressing future growth plans), and a Water & Sewer Rate Study (includes an annual rate increase). These various sources of data collection and analysis are all considered in developing a budget as well as the impact of new demands and needs, population increases, inflation and legislative changes.

As we look towards our upcoming budget, I feel it is important that we take a moment to review the accomplishments of the County over the last year as well as events that may have an impact on operations. As a result of the "Back to Basics" philosophy the Board has taken, the County has been able to maintain its financial stability through difficult economic times.

- ④ GFOA Distinguished Budget Presentation Award: Lowndes County received the Distinguished Budget Award from the Government Finance Officer Association of the United States and Canada for the eighth consecutive year for its budget year ending June 30, 2014.
- ④ GFOA Certificate of Achievement for Excellence in Financial Reporting: Lowndes County received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada for the seventh consecutive year for the comprehensive annual financial report for the year ending June 30, 2013.
- ④ Bond Rating: Lowndes County maintains an excellent bond rating. The most recent ratings were A1 from Moody's and AA- from Standard and Poor's.
- ④ Millage Rate: In 2007, the Industrial Authority began receiving 1 mil of taxes annually. In 2008, the Parks and Recreation Authority began receiving 1.25 mils annually. The millage attributable to the County however, has not increased since 1999 when the Service Delivery Strategy Agreement was first put into place. In fact, since that time, there have been a number of reductions to the millage rate.

In computing the millage rate each year, the County is required to computer a “rollback millage”, the rate that would generate the same amount of taxes from the prior year. If the actual rate exceeds the rollback rate, the County must advertise an increase and hold three public hearings in accordance with the Taxpayers Bill of Rights. Adding to the complexities of computing millage, the State Legislature has imposed assessment caps and repealed the Homeowners Tax Relief Grant which gave an additional exemption of \$8,000 in recent years.

March 2013 marked the beginning of the new Title Ad Valorem Tax which eventually will replace the traditional ad valorem or “birthday tax” on vehicles. As new vehicles move past the first year of implementation and older vehicles phase out of the traditional ad valorem plan, we will see what the effect of the program is realistically. According to the plan, it is proposed to be revenue neutral.

- ④ Special Purpose Local Option Sales Tax and Local Option Sales Tax: One of the more concerning areas is in sales tax. The impact of sales tax collections is far reaching. On the Local Option Sales Tax (LOST) side, a decrease in collections has a direct effect on taxpayers. Lower collections mean less rollback. On the Special Purpose Local Option Sales Tax (SPLOST) side, lower collections means scaled back projects or delays in paving and other improvements.

The economy has certainly played a part in collections as has the changes made by the State Legislature. Currently, collection rates are reflective of those from 2010, one of the lowest collection years in recent memory.

Fiscal Year 2015 Highlights:

- ④ The General Fund reflects an increase of \$3,954,856 or 8.40% over last year. While many revenue sources continue to be virtually flat, the budget shows an increase to address items that have been put off for the past several years.
- ④ The total County Budget reflects an increase of \$25,392,832 or 29.06%. The vast majority of this increase is for Special Purpose Local Option Sales Tax VII which was passed in November 2013. SPLOST VII was not budgeted last year as voters had initially voted in opposition in November 2012 for a renewal.

Issues and Challenges:

- ④ **Roads:** Lowndes County has a considerable amount of unpaved roads which require maintenance. With the passage of SPLOST VII, the County has the funding available to continue paving roads although slow collections and the cost of asphalt may slow this down from past years.
- ④ **Declining Fines:** As you are aware, staff has been monitoring the fine revenues for the past several years. While volume has increased in virtually every court, fines have been stagnant and even decreased to a degree. We will be taking a closer look at this in the coming year.
- ④ **Declining Housing Revenue:** Another trend is the decline in prisoner housing revenues. We have determined that the majority of this is due to other governments filing state charges faster, making the prisoners the responsibility of the County and reducing the days the other governments are responsible for.
- ④ **Employee Compensation:** Employees of the County have gone a number of years without any changes to their compensation. As a result, the pay scale has experienced a high degree of compression. At the Board's direction, a pay plan study was requested. The recommendations of that study were considered and are reflected in the budget presented to you.
- ④ **Ageing Fleet and Rising Maintenance Costs:** The County, in an effort to cut costs in recent years, drastically reduced the purchase of new vehicles and equipment. As a result, the maintenance costs have increased over the years. Through the passage a SPLOST, a large number of those vehicles and equipment are planned for replacement and over time, we expect some improvement in the maintenance costs. Staff will be looking into other avenues for improving the fleet as well in the coming year.

Total Expenditures:

The total fiscal year 2015 proposed budget for the County is \$112,419,114, an increase of 28.64% for 2014. A breakdown of each fund follows.

Revenue:

The largest single source of revenues for the General Fund is derived from property taxes. As in the past several years, property taxes were calculated with little to no growth anticipated. As a result, in order to meet needs and maintain the current level of service, a modest tax increase is anticipated. While the final result will be determined in July, the current anticipated increase 0.95 mils.

Figure 1- General Fund Tax Revenues

Other revenue sources include other taxes, licenses and permits, intergovernmental fees, charges for service, fines and forfeitures, investment income and miscellaneous sources. The total projected General Fund revenue for fiscal year is \$51,011,181, an increase of \$3,954,856 or 8.40% from 2014. Current year property taxes account for \$30,717,661 or 60.22% of General Fund revenues.

Expenditures:

The proposed expenditures for fiscal year 2015 reflect the continuation of current services while addressing some needs that had been put off in the past several years. A large number of positions and upgrades were requested. A limited number of positions are included. Any upgrades included are those recommended in the salary study. There is no additional increase for cost of living or merit outside of the salary study. During the current fiscal year, the Board entered into a lease to replace the most outdated computer equipment so the requests remaining in the budget are limited. And, for the most part, capital purchases will come from the Special Purpose Local Option Sales Tax.

The budget contained herein gives details for each line item. The three main expenditure components of the proposed budget are personnel, operations and capital. Significant changes in each of those areas are briefly outlined below.

The single largest expenditure to a local government's budget is personnel which includes salaries and benefits. The expenditures for personnel in the fiscal year 2015 budget represent 50.11% of the General Fund budget or \$25,560,008, up from \$24,356,709. Of the total budget, personnel represents 27.46% or \$30,979,513, up from \$29,409,547.

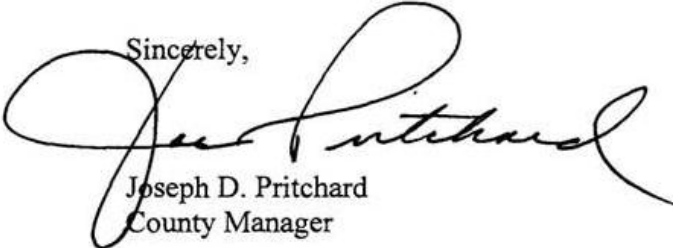

Figure 2- Personnel as a Percentage of Budget

Summary:

In keeping with the direction given by the Board, the Budget Committee hereby presents what we feel is a conservative budget that still allows us to address some things that have been postponed from prior budgets. As always, the Board is again committed to protecting the fund balance of the County. This budget provides for those mission critical services with an anticipation of a change in the millage rate for operations of less than one mil. The current estimate is 0.95 mills and will be finalized in late July when the digest is prepared. The dedicated millage for the Industrial Authority and the Parks and Recreation Authority will continue at their current rates. As difficult as the past few years have been, we have been able to continue services and meet the needs of our citizens without increasing taxes. This represents a trim budget that still enforces the Board's "Back to Basics" philosophy. We should all continue our efforts to find new and more cost effective ways to serve our citizens.

I am most grateful for the tremendous efforts of our department heads, elected and appointed officials in developing this budget. Their assistance and willingness to explore new options made the process much easier. Special recognition goes to Stephanie Black, Finance Director and her staff, and to Kevin Beals, Human Resource Director, and his staff in formulating this document. They are to be commended for their diligence throughout this process. The Budget Committee and I stand ready to assist you as we begin this new year.

Sincerely,

Joseph D. Pritchard
County Manager

HOW TO USE THIS DOCUMENT

The purpose of this document is to serve as a comprehensive summary of the County's operations for the coming year and to explain the factors and assumptions that led to that plan as well as the goals and objectives of the Board of Commissioners. The document should discuss challenges that the County faces as it strives to be a fiscally responsible and responsive local government. The budget document should serve as a policy document, a financial plan, an operations guide and a communication device.

To assist the reader, the budget document is divided into four main sections: the Introduction, Financial Summary, Specific Fund Budgets and Appendices.

- **Introduction** - This section provides information to familiarize the reader with Lowndes County. This is a profile of the County, information on funds and structures, discussion of current goals of the Board of Commissioners and a comparative historical background.
- **Financial Summary** - This section provides the reader with information about the overall County budget including historical information, debt service and capital improvements.
- **Specific Fund Budgets** - This section provides information about each fund, broken down by departments and includes goals, objectives and performance measures where available.
- **Appendices** - This section provides supplemental information to assist the reader in understanding the document. Included in this section is a glossary of terms as well as a position chart.

The goal of this document is to present the policies and goals of Lowndes County, revenue and expenditure summaries for all appropriated funds and descriptions of activities, services and functions. Also presented are descriptions of the budget process and a discussion of debt, capital improvements and staffing.

A HISTORY OF LOWNDES COUNTY

Lowndes County, located in south central Georgia, was created on December 23, 1825. The County was named for William Jones Lowndes, a South Carolina statesman who died shortly after being nominated for Vice-President of the United States. His father, Rawlins Lowndes, was a Revolutionary War leader from South Carolina.

In 1821, four settlers, James Rountree, Lawrence Folsom, Drew Vickers and Alfred Belote, moved into the section of Georgia which is now known as Lowndes County. The

following year, the State commissioned General John Coffee and the militia to cut a road from Telfair County to Thomas County. Realizing the potential, Sion Hall and his son Enoch came to the region and began a sawmill. After more settlers arrived, Hall erected a store, establishing the first commercial enterprise. In 1825, it was decided to petition the legislature to create a new county. The original county was 2,080 square miles and bordered Ware, Thomas and Irwin Counties and the

State of Florida.

The appointed Commissioners decided on a permanent site for the County seat in 1827 which was adjacent to a good spring on the Withlacoochee River. Franklinville was made up of only a few houses, some log buildings, a court house, post office and a store. Court convened for the first time in May 1829. Franklinville proved to be unsatisfactory as a County seat. The Commissioners moved the site to the junction of the Withlacoochee and Little Rivers. In 1837, Troupville became the County seat. Troupville was named after Governor Georgia Troup, one of Georgia's most noted governors. Troupville grew rapidly soon becoming a town with stores, residences, shops and churches. It soon built a court house.

While the citizens had long anticipated the railroad coming and had invested in it, when it did extend its right of way, it was four miles south of the County seat. Realizing that the rail line was vital to their progress, the Commissioners chose to relocate the County seat along the rail line in 1859. While the name Troupville was not transferred, the

A History of Lowndes County

citizens wanted to retain some ties to Governor Troup. The new seat was named Valdosta after Troup's plantation Val d'Aosta. July 4, 1860 marked the first day the train passed through Valdosta and on December 7, 1860, the City of Valdosta was incorporated. Lowndes County and the area soon became the largest inland market for Sea Island cotton in the world.

The Strickland Cotton Mills were established in 1900 and was one of the largest industries in early Lowndes County. The employees lived in a company town that became known as Remerton. Although the mill is no longer in operations, the City of Remerton continues to thrive. Coca-Cola's second bottling company in the world was also located in Lowndes County.

Valdosta State University was established in 1906. First called South Georgia State Normal College, the school was renamed Georgia State Women's College in 1922. Following World War II, the school was renamed Valdosta State College in 1950 and achieved university status on July 1, 1993.

The campus, which sits on 172 acres, has five colleges, 73 undergraduate degrees and 59 graduate degrees. Current enrollment is approximately 13,000 students.

Today, Valdosta and Lowndes County are a thriving economic center, ideally located on the state border with Florida along Interstate 75. Lowndes County boasts two rail services, an airport and quick access to seaports. Shopping opportunities are available with a mall, outlet centers, antiques and the downtown area. Lowndes County is also home to Moody Air Force Base, named for George Putnam Moody. In addition, there are wildlife management areas, theme parks, theatres, golf courses and more to appeal to residents and visitors alike.

The Budget Process

The annual budget process for the County actually begins in early spring with the Board of Commissioners' retreat. At this meeting, the Board meets with various departments and determines the direction and goals of the County for the coming year. The formal budget process then begins in the late fall of each calendar year. A budget calendar is developed outlining projected dates for milestones in the process and is presented to the Board of Commissioners for approval.

The Finance Department prepares budget packages for each division, department or agency receiving funding showing historical and year to date data and providing instructions for submitting budget information. Requested personnel and computer equipment are due prior to the due date for complete packages to allow Human Resources and Information Technology Services (ITS) to compute the costs of those requests. Budget packages request that all divisions provide goals, objectives and performance measures and gives guidance.

Once the budget packages are received and entered into the budgeting system, revenue projections and any additional expenditures are calculated and entered. The Budget Committee, made up of the County Manager, Finance Director and any additional employees determined annually, begin meeting with departments to discuss their requests.

The Budget Committee, using the data gathered during the process, then begins to make adjustments to the requests to develop a proposed budget. It is the objective of the Budget Committee to present the Board of Commissioners with a balanced budget.

Commissioner work sessions are then scheduled where the Budget Committee reviews the entire budget with the Board. Once any changes recommended by the Board are entered, public hearings are scheduled and advertisements are placed. All departments receive a copy of the proposed budget before the public hearings. A copy of the proposed budget is also available for citizen review in the office of the County Clerk.

Budgeting and Accounting Controls

The budget is adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP). Encumbrances are recorded to prevent expenditures from exceeding budgeted amounts. The County's accounting records for governmental type funds are maintained on a modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for proprietary fund types are maintained on an accrual basis, with revenues being recorded when earned and measurable and expenses being recorded when the services or goods are received and the liabilities are incurred. It should also be noted that the Board of Commissioners is fiscally responsible for a number of organizational units that it does not have direct control over. These constitutional officers, elected officials, boards and mandates have a great deal of discretion over their operations and budgets.

The level of budget control (the level at which the expenditures cannot legally exceed the approved budget) is maintained at the department level. County department budgets contain detail by major service group (personal services, contractual services, etc.) and by line item within each major service group (salaries - regular, health insurance, life insurance, etc.) Individual line items can be overspent as long as the "group" they belong to is not over budget. Groups are made up of accounts within a department's budget that the department head has some discretion over. Items such as personnel, debt service, fleet rental and utility costs are not included in the groups. Line items for personnel cannot be moved without the approval of the Board of Commissioners. The objective of these budgetary controls is to ensure compliance with legal provisions and mandates embodied in the approval of the annual budget adopted by the Board of Commissioners. The annual budget includes the General Fund, Special Revenue Funds, Enterprise Funds and Internal Service Funds.

Fund Structure and Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide and enterprise and internal service fund financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; enterprise and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures. Under the accrual method, income is recorded in the period in which they are earned and expenditures are recorded in the period in which they are incurred. Modified accrual is the method under which revenues are recognized in the period they become available and measurable and expenditures are recognized in the period the associated liability is incurred. Following is a chart defining the County's current fund structure and the basis of accounting used for each.

Fund	Description	Basis of Accounting
General Fund (Major Fund)	The General Fund is the principle operating fund of the County government. Most of the operating expenditures of the County should be accounted for under the General Fund unless there is a compelling reason for them to be reported in some other fund type.	Modified Accrual
Special Revenue Funds	<i>Special Revenue Funds are used to account for specific revenues that are legally limited in their usage. The County's Special Revenue Funds are described below.</i>	Modified Accrual
Sheriff's Commissary	This fund is used to account for the personal items that are purchased for the benefit of inmates in the Lowndes County Jail. All proceeds are returned to the fund and are used to purchase items for inmates.	Modified Accrual
Drug Seizures	This fund is used to account for the funds received by the Sheriff related to drug interdiction. The funds are required to be used by the Sheriff's Office for programs that help reduce the use of drugs and to educate the public on drug resistance.	Modified Accrual

Fund Structure and Basis of Accounting

Fund	Description	Basis of Accounting
Accommodate Excise Tax (Hotel/Motel)	This fund is used to account for the collections of accommodation excise taxes, also referred to as hotel/motel or bed tax. By statues, 40% of the tax must be used for the promotion of tourism. The remaining portion helps funds the County's share of the Airport Authority.	Modified Accrual
Intergovernmental Grants	This fund accounts for most grants received by the County. Exceptions are generally for CDBG grants and those that qualify as capital projects. Also included in this fund is the payroll for Alternative Dispute Resolution (ADR) which is reimbursed in full by ADR monthly.	Modified Accrual
Jail Operations	The Jail Fund accounts for the monies received from fines and forfeitures which are set aside for staffing, maintenance and operations of the Lowndes County Jail. All expenditures in this fund relate to the operations of the jail.	Modified Accrual
Drug Abuse Treatment	This fund accounts for monies received from fines and forfeitures which are set aside for treatment and educational programs relating to drug usage. This program, operated by LODAC (Lowndes Drug Action Council) was previously accounted for as a County departments but was changed to an appropriation in fiscal year 2011.	Modified Accrual
Emergency Communications	This fund is inclusive of activities regarding 911 communications. Included in this fund are the 911 Center, the Sheriff's Radio Communications and the Public Safety Radio System, an 800 MHz radio system used by all emergency services and related support divisions. The fund is supported primarily through surcharges to users of wireless and landline telephones, user charges for the radio system and General Fund Support.	Modified Accrual

Fund Structure and Basis of Accounting

Fund	Description	Basis of Accounting
Victim/Witness	This fund is used to account for monies received from fines and forfeitures set aside for victim programs. These funds are appropriated to the District Attorney who allocates a portion for the Solicitor General.	Modified Accrual
Special Services	This funds was created with the finalization of the Service Delivery Strategy Agreement. Revenues are derived for unincorporated services and expenditures are for programs that primarily benefit the citizens of the unincorporated areas. Among the services accounted for in the Special Services Fund are Fire, Planning and Zoning.	Modified Accrual
Law Library	The fund accounts for monies received and used for the Law Library which is administered by the Courts.	Modified Accrual
<i>Capital Project Funds</i>	<i>Capital Project Funds are used to account for specific revenues that are limited to specific capital projects. The County uses Capital Project Funds to account for its Special Purpose Local Option Sales Tax. A description of the Capital Project Funds follows.</i>	<i>Modified Accrual</i>
CDBG CHIP Grant	This fund accounts for the County's CHIP program which assists with low-income housing needs either through down payment assistance or rehabilitation. The CHIP Grant was not funded after fiscal year 2012 and appears for historical purposes only.	Modified Accrual
SPLOST IV	This fund accounts for the County's fourth Special Purpose Local Option Sales Tax. Spending of funds is complete and the fund appears for historical purposes only.	Modified Accrual

Fund Structure and Basis of Accounting

Fund	Description	Basis of Accounting
Judicial/Administrative Complex and Jail	This fund accounts for bond proceeds used for construction of the second phase of the Judicial/Administrative Complex and the second phase of the jail expansion. Additional improvements for the jail come from the remaining proceeds.	Modified Accrual
SPLOST V	This fund accounts for the County's fifth Special Purpose Local Option Sales Tax. Spending is almost complete for this SPLOST which ended collections in 2007.	Modified Accrual
(Major Fund) SPLOST VI	This fund accounts for the County's previous Special Purpose Local Option Sales Tax. Unlike previous SPLOSTs, the County remits the proceeds to other municipalities when received rather than keep them until spent. This SPLOST ended collections in 2013.	Modified Accrual
CDBG The Haven	This fund accounts for the Community Development Block Grant funds granted to The Haven, a local battered women's shelter, for the construction of a new facility. The project was complete in fiscal year 2013 and appears for historical purposes only.	Modified Accrual
Public Roads (LMIG)	This fund accounts for the funding received from the Georgia Department of Transportation for road project assistance. These funds were previously accounted for in the grant fund.	Modified Accrual
(Major Fund) SPLOST VII	This fund accounts for the County's current Special Purpose Local Option Sales Tax. Collections for this SPLOST began in January 2014 and will run for six years.	Modified Accrual
<i>Enterprise Funds</i>	<i>Enterprise Funds are used primarily to account for "business-like" activities that are primarily financed through user charges. Following is a description of the Enterprise Funds used by the County.</i>	<i>Accrual</i>

Fund Structure and Basis of Accounting

Fund	Description	Basis of Accounting
Water & Sewer (Major Fund)	This fund accounts for the revenues and expenses of the County's utility system which provides water and sewer to customers. Revenues come primarily from user charges and are expensed for administration of the departments as well as water and sewer operations.	Accrual
Landfill	This fund accounts for the activities relating to the County's landfill services. Revenues are received in the form of Solid Waste Host Fees from a private landfill located in Lowndes County. Expenses relate primarily to the monitoring of methane and other post closure costs for the County's closed landfill and for an appropriation to Keep Lowndes/Valdosta Beautiful.	Accrual
Tax Lighting Districts	This fund accounts for special tax lighting districts in Lowndes County. Districts are created either through covenant or petition of property owners. Each property is assessed an annual fee on the property tax bill which funds the lighting districts.	Accrual
Sanitation	This fund accounts for the County's solid waste management program. During fiscal year 2013, the County entered into an exclusive contract with Advanced Disposal Services and this fund is presented for historical use only.	Accrual
<i>Internal Service Funds</i>	<i>Like Enterprise Funds, Internal Service Funds account for "business-like" activities but for an internal customer. User charges are the primary source of revenue. Following is a description of the Internal Service Funds used by the County.</i>	<i>Accrual</i>
Equipment Maintenance	This fund accounts for the maintenance of all County vehicles and equipment. Revenues are received from the Fleet Manager Fund for parts and services as well as fuel.	Accrual

Fund Structure and Basis of Accounting

Fund	Description	Basis of Accounting
Health Insurance	This fund accounts for the County's health insurance plan. The County is self-insured. Beginning in 2010, Workers Compensation was moved to its own fund.	Accrual
Fleet Manager	The Fleet Manager "owns" all vehicles and equipment for Lowndes County and "rents" them to departments for use. Rental rates are based on the historical cost of maintenance for each vehicle and also includes any debt service.	Accrual
Workers Compensation	Like the Health Insurance Fund, Workers Compensation accounts for the County's plan which is administered by ACCG.	Accrual

Financial Policies

Budget and Equity Policy:

The purpose of this policy is to provide general guidelines for the operations of the Finance Department relating to budgeting and equity reserves. The adoption of an operating budget is one of the County's most important activities and is subject to Georgia Code Section 36-81-7.

A budget calendar for the subsequent budget year shall be presented to the Board of Commissioners at the start of each budget cycle. The calendar shall include specific tasks required to prepare the budget and completion dates for those tasks.

The County will utilize a decentralized operating budget process. All departments and constitutional officers provide to the Finance Department requests for personnel, goods, capital, and services necessary to meet the operational objectives of the budget period. Each shall submit a budget for "current services," "expanded services," and "expanded service-not carried forward." Special, one-time revenues shall be used to purchase non-recurring items and shall not be used to support the long-term operations. Special revenue funds are limited to the mandates of the funding source and are not to be used to subsidize other funds unless specifically allowable under the program regulations.

Annual budgets shall be adopted for the general fund, special revenue funds, enterprise funds, and debt service funds. Project budgets shall be adopted for capital project funds. Trust and agency funds achieve budgetary control through stipulations in the trust agreements; therefore, budgets are not adopted for these funds.

The budget for each fund must be balanced. Anticipated revenues and unreserved fund balance must equal or exceed anticipated expenditures.

It is the objective of the County to maintain an unreserved fund balance for the general fund to pay expenditures from unforeseen emergencies, for shortfalls caused by revenue declines and to eliminate any short-term borrowing for cash flow purposes. The County shall strive to maintain this unreserved fund balance at a level equivalent to one quarter's expenditures (120 days).

Financial Policies

Budget and Equity Policy, con't.:

Budgets for governmental fund types will be adopted on a basis of generally accepted accounting principles except for the recognition of outstanding encumbrances. Revenues are budgeted when they become measurable and available and expenditures are charged against the budget when they become measurable, a liability has been incurred, and the liability will be liquidated with current resources. All outstanding encumbrances are charged as an expenditure to the budget appropriation in the year initially encumbered.

All unencumbered appropriations lapse at year-end. However, the appropriation authority for major capital projects and capital assets carries forward automatically to the subsequent year. When these encumbrances become expenditures, they are charged to the subsequent year's revised budget. All other encumbered appropriations lapse at year-end and any of these orders that the County honors must be charged against the subsequent year's original budget.

The budget shall be adopted at the fund/department level. Any adjustment of salaries and benefits shall require approval of the Board of Commissioners. The County shall include an amount in the general fund budget for unforeseen operating expenditures. This contingency appropriation shall be approximately 1.5% of the operating budget or \$500,000, whichever is less.

The County shall maintain a system of budgetary control to ensure adherence to the budget. The proposed budget shall be submitted to the Board of Commissioners for adoption prior to June 30 of each calendar year for the subsequent year. A copy of the proposed budget shall be made available to the public and, upon request, to the news media. An advertisement of the availability of the proposed budget and notice of a public hearing shall be placed as prescribed in Georgia Code Section 36-81-5. The public hearing shall be at least one week prior to the meeting at which the budget is to be adopted by the Board of Commissioners.

Georgia Code Section 36-81-7 requires that an annual independent audit of the financial statements of the County be performed. This policy is intended to provide guidance for accounting and the general audit.

Financial Policies

Budget and Equity Policy, con't.:

The County shall establish and maintain a high standard of accounting practices. Those standards shall conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

The County shall establish and maintain a formal, written Policies and Procedures Handbook. All policies contained in the manual shall be adopted by the Board of Commissioners.

The Finance Department shall prepare quarterly financial reports for management purposes and shall reconcile monthly according to the currently prescribed reconciliation schedule. The Finance Department shall prepare a Comprehensive Annual Financial Report. Once audited, this report shall be made available to elected officials, other agencies, creditors and citizens upon request.

Annually, an independent public accounting firm shall conduct an audit of the financial reports of the County.

The County may use the competitive bid process for the audit or may appoint a county auditor for a term of three to five years. In issuing a request for proposal, the County shall request a proposal for qualifications and a proposal for cost. Qualifications of the auditor shall be determined prior to the opening of the bids for cost. An agreement between the County and the auditor shall be in the form of a written contract that will include the request for proposal. All general-purpose fund and group statements and schedules shall be subject to the full scope audit.

Financial Policies

Capital Improvement Plan Policy:

The County shall maintain a strong internal audit function. The Internal Auditor shall report to the County Manager and shall evaluate the County's systems to ensure compliance with policy and internal control concerns.

A capital improvement plan (CIP) is a long-range plan of purchasing, constructing, and maintaining the County's capital assets. A capital budget is the portion of the operating budget that funds capital costs. To effectively manage debt and project cash flows, the County shall strive to maintain a CIP for a five-year period. As resources are available, the most current year of the CIP will be incorporated into the current year's operating budget. The CIP will be reviewed and updated annually.

For the purposes of this policy, land, land improvements, and building projects with a cost of \$7,500 or more shall be classified as capital assets. Equipment with a cost of \$7,500 or more and a useful life of two or more years shall be classified as a capital asset.

The County's objective is to meet the capital needs of the County in a manner that is most beneficial to the citizens. Projects in the CIP shall be prioritized during the annual review. The following criteria shall be considered in prioritizing projects:

- Is the project mandatory?
- Does the project improve efficiency?
- Does the project provide a new service?
- What is the extent of the project's usage?
- What is the project's expected useful life?
- What is the effect on operation and maintenance costs for the project?
- What are the available state/federal grants for the project?
- What hazards will the project eliminate?
- What are the prior commitments for the project?

The County shall strive to allocate approximately 8% of the annual general fund budget toward the addition and replacement of capital assets.

Financial Policies

Investment Policy:

Per Code Section 36-83-2 G of the Official Code of Georgia, “public interest is served by maximum and prudent investment of idle public funds so that the need for taxes and other public revenue is decreased commensurately with the earning on such investments.” It is the objective of Lowndes County to invest idle public funds in a manner which will provide the highest investment return while insuring safety and liquidity as well as complying with the above Code Section. Investment decisions are made with the judgment and care of a prudent person, not for speculation, but for investment.

Responsibility -

Management and administration of the investment program of the County shall be the responsibility of the Finance Director. The Finance Director shall establish written procedures for the operation of the program, specifically outlining the decision making process, requirements for investment, placement of investments, and authority established under the program. The Finance Director shall maintain a list of authorized institutions and shall review this list annually. On a quarterly and annual basis, the Finance Director shall prepare a report of the investment program which shall be presented to the Board of Commissioners.

Objectives -

In order to maximize investment return, the County shall pool all funds except those restricted or categorized as special funds. The County shall seek to reduce the credit risk, reduce interest rate risk, meet liquidity requirements, and maximize the rate of return. These objectives shall be achieved through long-term cash flow projections, diversification of investments and utilization of qualified institutions and brokers/dealers. Investment decisions shall be made impartially and any material interest in an institution or agency that can be construed to cause a conflict of interest shall be disclosed to the County.

The County shall also issue a request for proposal for banking services to financial institutions in the geographic area. The awarding of the contract shall be based on the proposals received. A contract shall be developed upon award and approved by the Board of Commissioners.

Types of Investments and Requirements -

The County shall be authorized to make investment in the following types of securities pursuant to Georgia Code Section 36-83-4:

Financial Policies

Investment Policy, con't.:

- ④ Obligations of this or other states;
- ④ Obligations issued by the United States Government;
- ④ Obligations fully insured or guaranteed by the United States government or a United States government agency;
- ④ Obligations of any corporation of the United States government;
- ④ Prime bankers' acceptances;
- ④ Local government investment pool;
- ④ Repurchase agreements;
- ④ Obligations of other political subdivisions of this state;
- ④ Deposits of institutions established under the laws of this state or the United States and operating in the State of Georgia.

Collateralization will be required on certificates of deposit and repurchase and reverse repurchase agreements at 110% of market value of principal and accrued interest. Collateral is limited to obligations issued by the United States government and obligations fully insured or guaranteed by the United States government or an agency of the United States government and will be held by an independent third party with a safekeeping receipt supplied to the County. All transactions will be conducted on a delivery-versus-payment basis.

The County shall anticipate cash flow needs and shall attempt to match investment with that anticipated cash flow as closely as possible. Except for those reserve or other funds with long-term investment horizons, the County shall limit maturities to five years or less. A portion of the portfolio shall be invested in more liquid funds to meet the operational needs of the County.

Institution and Broker/Dealer Requirements -

Investments shall be placed with institutions and broker/dealers on the authorized list maintained by the Finance Director. Institutions and broker/dealers desiring to become an authorized institution shall supply, as appropriate, the following items:

- ④ An audited financial statement;
- ④ Proof of National Association of Securities Dealers certification;
- ④ Proof of State of Georgia registration;
- ④ Completed broker/dealer questionnaire;
- ④ Certification of having read and agreeing to comply with the Investment Policy of Lowndes County

Financial Policies

Investment Policy, con't.:

Prior to placing any investment, the institution will provide a certification of having read and agreeing to comply with the Investment Policy of Lowndes County and to exercise due diligence in managing the investment of the County.

Diversification Limits -

In order to maintain a secure and diversified portfolio, the County has set the following limits for investment in certain types of securities.

- ④ US Government Obligations - 100%
- ④ US Government Agency Securities and Securities issued by Instrumentalities of Gov't. Sponsored Corporations - 75%
- ④ Repurchase Agreements - 25%
- ④ Prime Bankers Acceptances - 10%
- ④ Obligations of other political subdivisions of the State of Georgia - 25%

Reporting and Audit Requirements -

A quarterly and annual investment report will be made by the Finance Director and submitted to the Board of Commissioners. The report shall include the following:

- ④ List of individual securities held at the end of reporting period;
- ④ Realized and unrealized gains or losses resulting from appreciation or depreciation by listing cost and market value of securities over one year duration that are not intended to be held until maturity;
- ④ Average weighted yield to maturity of portfolio;
- ④ List of investment by maturity date;
- ④ Percentage of total portfolio represented by each type of investment.

The Annual Financial Report of the County will disclose the performance of the investment program and will be audited annually by an independent firm.

Financial Policies

Debt Management Policy:

In order to meet capital improvement objectives, Lowndes County may from time to time issue debt instruments to finance those capital improvements. The following policy is intended as a guideline for the issuance of debt instruments regarding terms, methods, limits, responsibilities and objectives. This policy strives to provide a consistent and orderly decision making process, to identify objectives, and to demonstrate a commitment to long-term planning. Adherence to the policy and a commitment to full and timely repayment insure that the creditworthiness of the County is protected.

Creditworthiness Objectives -

The County's primary objective is to minimize debt service costs. To meet this objective, the County will strive to maintain the highest credit rating possible without compromising services to citizens. The Finance Director will maintain relationships with rating agencies and provide updated financial information regularly. At the discretion of the Finance Director and/or Committee, the County may seek the services of a rating agency on a debt issue. The County will strive to maintain a credit rating of "A" or higher for direct, long-term debt obligations and will offer enhancements if economically feasible to achieve that rating. The net debt service on the bonds should be reduced by more than the cost of the enhancements and should be subject to the competitive bid process. The County will fully and completely disclose all debt issues as part of its' Annual Financial Report and will meet the standards for disclosure set by state and national regulatory bodies. The County will systematically plan for capital improvements to coordinate financing plans.

Responsibility -

It shall be the responsibility of the Finance Director to develop financing recommendations. These recommendations should be based on time, carrying cost, financing options, effect on tax rates and user charges, interest rate trends, and other appropriate factors. A Committee comprised of appropriate personnel will assist the Finance Director if appropriate. The Director and/or Committee shall assess progress on the Capital Improvement Plan of the County, review regulatory changes, review services provided by outside agencies, and evaluate the long term financing plans. The Finance Director and/or Committee shall analyze any proposal for capital financing made to the County or any agency that involves a pledge of the County's credit. The Finance Director and/or Committee shall be responsible for solicitation and selection of Bond Counsel, Underwriters, Financial Advisors, Paying Agents and any other service providers deemed necessary.

Financial Policies

Debt Management Policy, con't.:

Bond Counsel may be used to provide an opinion as to legality and tax exempt status of any obligation and to advise on all other types of financing and on any other questions involving federal tax or arbitrage laws. Bond Counsel will be responsible for preparing ordinances authorizing issuance of obligations and closing documents to complete their sale.

A Financial Advisor may be used to advise on the structuring of obligations and on how the choices will impact the marketability of obligations. The Financial Advisor will not bid nor underwrite any debt issues of the County, eliminating any conflict of interest.

Limits on Indebtedness -

The objectives for the County are to stay within limits prescribed in state statutes and to maintain its' credit standing. The County will conduct annual reviews of capital spending and debt conditions as well as their impact on the millage calculation and debt management goals. The County should strive to work with each jurisdiction to eliminate duplication of services and efficiently manage capital improvements. The Finance Department shall be responsible for developing procedures for use of debt instruments as well as repayment terms and amortization schedules prior to the issuance of any debt. Following is a brief overview of the limits for specific debt issues.

Full faith and credit obligations of the County which are not self-supporting or which are paid from general fund revenues are subject to a limit of 1% of taxable assessed value. Further, annual debt service requirements should not exceed 10% of general fund revenues.

Short-term lease-purchase obligations used to purchase equipment and furnishing with useful lives of ten year or less should not exceed .125% of taxable assessed value. The obligation should not extend past the useful economic life.

General Fund loan guarantees and credit supports, used to meet high priority needs, are subject to a limit of 1% of taxable assessed value. Use of the General Fund to secure long-term obligations impairs the ability of the General Fund to support ongoing operations; therefore a decision to do so must be approved by the Board of Commissioners. The use should demonstrate an underlying self-support, should be a transition to stand alone credit, and should be in the best interest of the County.

Financial Policies

Debt Management Policy, con't.:

Revenue-secured debt may be used to fulfill the capital needs of the revenue producing enterprise activities. The amount should be limited to the feasibility of the overall financing plan determined by the Finance Director and/or Committee. Issuance of bonds shall be made in accordance with the laws of Georgia. The obligations of such bonds shall be held to the project requirements and the limits imposed by those laws.

Structure and Term -

As with any financing plan, the duration of any debt issue should never exceed the economic life of the improvement that it is financing. Whenever possible, the duration should be shorter than the economic life. The County shall strive to pay 20% of debt obligation within five years and 40% within ten years. It is therefore imperative that long range plans and goals be set and monitored when debt issues are considered.

At the discretion of the Finance Director and/or Committee, the County may issue securities that pay a variable rate of interest. The County may also make an irrevocable pledge of a security interest in an account created exclusively for the security holders of the obligations. The pledge would have to fall within the fund restrictions and could not infringe upon the ability to meet underlying commitments of the funds as well as meet with the approval of the Board of Commissioners. Upon Board of Commissioner approval, the County may also create a subordinate lien obligation, if appropriate. When determined to have a general public purpose and to be consistent with the County's overall service objectives, the County may sponsor conduit financing. Such financing must insulate the County from risk or exposure and must be approved by the Board of Commissioners.

Method of Sale -

The County shall determine the best sale method for each debt issue based on market conditions, issue-specific conditions, cost and risks associated with alternative debt structures, credit rating, general financial condition and staff capability to administer. The County shall promote competition in issuing debt and shall design an official bid form that will be a part of each official notice of sale. In determining whether to use a competitive or negotiated sale process, the County shall refer to the Government Finance Officers Association publication on "Selecting and Managing the Method of Sale." Upon approval of the Committee, the County may elect to issue debt through a private placement.

Financial Policies

Debt Management Policy, con't.:

Short-term Debt and Interim Financing -

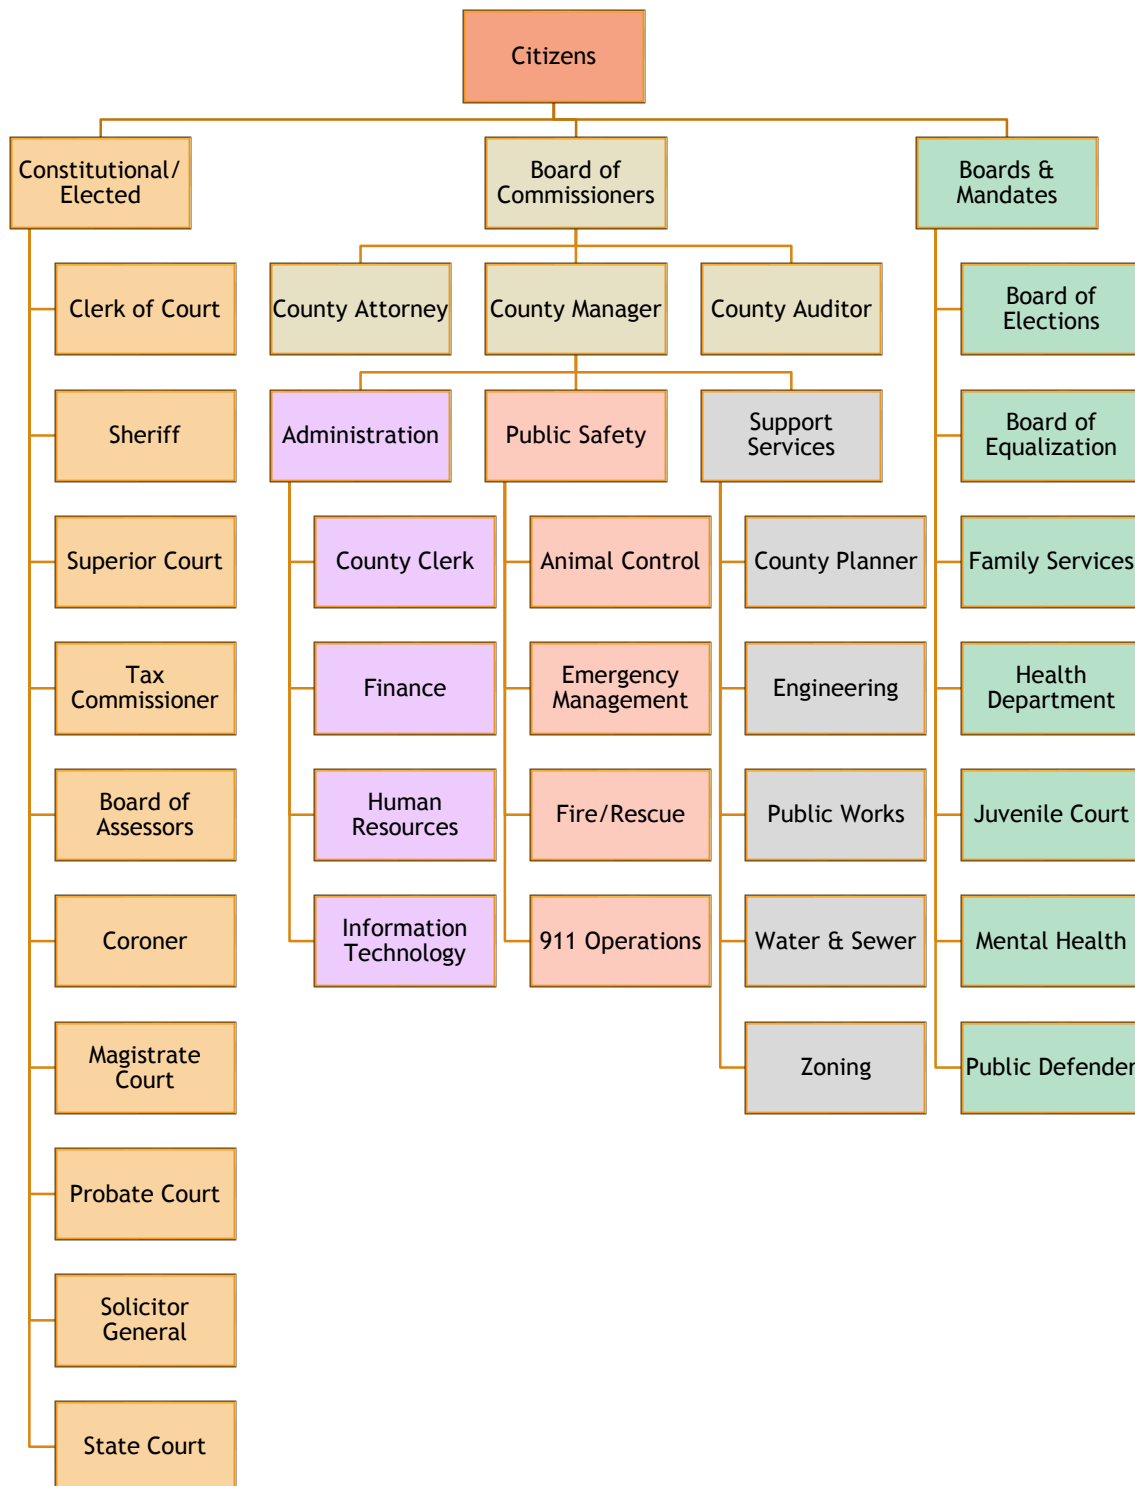

The County may choose to enter into agreements for short-term or interim debt financing when such decision is deemed to be advantageous to the County. Upon approval by the Board of Commissioners, the County may acquire lines or letter of credit or may issue Tax Anticipation Notes. Takeout financing should be planned and determined to be feasible prior to acquisition or issuance. Tax and Revenue Anticipation Notes may be issued upon approval by the Board of Commissioners to fund internal working capital needs. The amount of TANs will not exceed 75% of property taxes collected in the prior year and will be retired by December 31 of each calendar year. Cash flow projections should be prepared prior to issue. Tax Exempt Commercial Paper may be utilized as a source of financing only when such financing represents the least cost interim financing option, the project is of sufficient economic size and the issuance has been approved by the Board of Commissioners.

Refunding of Indebtedness -

The County may issue advance or current refunding bonds when advantageous, legally permissible, and prudent. For advance refunding bonds, net present value savings, expressed as a percentage of the par amount of the refunding bonds, shall equal or exceed 5%. For current refunding bonds, the net present value of savings shall equal or exceed \$100,000. When economically feasible, the County may choose to purchase its securities on the open market to reduce its outstanding indebtedness. It shall be the responsibility of the Finance Director to establish a system of record keeping and reporting that complies with federal tax law, to track investment earnings, to calculate rebate payments, and to remit rebatable earnings to the federal government.

Property Tax: In prior years, the Budget Committee used a growth factor of 3.00% to 3.50% for property taxes. Since 2011, the growth factor used has been 0.00%. The County enjoyed several years of growth from new construction, however, the economy significantly impacted that. In recent years, the General Assembly has made some attempts at tax reforms that have also impacted property tax revenues. First, in 2009, assessment values were frozen at the 2008 levels for three years. While the freeze has been lifted, growth has not picked up and some properties have actually lost value. Secondly, in its 2012 tax reform, the ad valorem on vehicles or “birthday tax” as it is known, was replaced with a title ad valorem tax (TAVT). There is a long transition period for old vehicles to come off the traditional ad valorem and move to the TAVT. According to the State, the transition should be revenue neutral but the full effects have yet to be seen as the change went into effect in March, 2013.

Figure 9 Countywide Digest History

The Lowndes County Tax Commissioner’s Office typically sees a collection rate of around 95% in the first year of levy. With that in mind, the Budget Committee also reduces the budgeted tax revenues to account for that collection rate. In subsequent years, the Tax Commission comes very close to fully collecting the levy, averaging 98-99%.

Revenue Sources and Assumptions

Taxes:

Local Option Sales Tax: This 1% tax on all retail sales, which is restricted to property tax relief, is collected by the Georgia Department of Revenue and remitted monthly to each government. Lowndes County keeps approximately one year of this tax in fund balance and recognizes it as revenue in the following year. Every ten years, on the second year following the decennial census, the local governments must negotiate on the allocation of the tax. The General Assembly has made several changes in the law over time. During the most recent renegotiation phase, several lawsuits were brought challenging the constitutionality of the current act. As a result, the current allocation remains in effect for Lowndes County. The tax is budgeted based on historical trends. The slowdown in the economy has had an effect over the past few years. The new TAVT began impacting the collections in 2014.

Special Purpose Local Option Sales Tax: This 1% tax is collected by the Georgia Department of Revenue and remitted monthly to the County who then distributes it to each government based on the referendum. The tax is budgeted based on historical trends. The slowdown in the economy has had an effect over the past few years. The new TAVT began impacting the collections in 2014.

Taxes:

Alcoholic Beverage Excise Tax: This tax is on the sale of alcoholic beverages in unincorporated Lowndes County. Budgets are based on historical data. Prior to 2009, this tax was accounted for in the General Fund.

Occupation Tax: This tax, commonly referred to by citizens as a business license, is actually a tax on the registration of businesses in the unincorporated areas of Lowndes County. The amount of the tax is determined by profitability ratios and gross receipts and is valid from June 1 through May 31. This line is budgeted based on historical trends. Prior to 2009, this tax was budgeted for in the General Fund.

Franchise Tax: This tax is imposed on cable providers operating in the unincorporated areas of Lowndes County under a franchise agreement. Revenues are budgeted using historical data and any change in providers and was previously accounted for in the General Fund.

Taxes:

Insurance Premium Tax: This tax is based on the gross direct premium of insurance sold and is returned to the County from the Georgia Department of Revenue. The budget is based on historical trends and the tax is used to fund fire protection. Prior to 2009, it was accounted for in the General Fund.

Figure 16 Insurance Premium Tax Collection History

Accommodation Excise Tax: This tax, also known as the Hotel/Motel or Bed Tax, is a 5% tax on the provision of lodging and accommodations. By statute, 40% must be used for the promotion of tourism. Lowndes County collected this tax county wide prior to 2008 when the City of Valdosta began collecting within the city limits. The City of Hahira began collections in 2009.

Licenses and Permits:

Alcoholic Beverage: Lowndes County requires that businesses engaging in the sale of alcoholic beverages in unincorporated Lowndes County to purchase a license to do so annually. The budget for this line item is based on current active licenses and the fee structure in effect. Prior to 2009, this item was accounted for in the General Fund.

*Note - During 2002 and 2003, the license fees were included in the occupation taxes.

Revenue Sources and Assumptions

Intergovernmental:

Other Government - ADR: Per an agreement with the Superior Court, Lowndes County processes the payroll for Alternative Dispute Resolution (ADR). This line item represents the repayment of all personnel costs to Lowndes County.

Public Safety Radio System: The Public Safety Radio System is the County's 800 MHz radio communications for emergency and related support agencies and services. Several municipalities and other agencies are also a part of the system. Users pay a share of the recurring costs annually depending on the type and number of units they utilize and the budgeted costs for the year.

Victim/Witness: The Victim/Witness funds serves victims of crime using add-on fines from the courts to fund those services. This represents the amounts received from the other municipalities for their portion of Victim/Witness fees.

Revenue Sources and Assumptions

Charges for Service:

Prisoner Housing: The Lowndes County jail houses inmates from Lowndes County as well as surrounding areas. Each government contracts with the Sheriff for the rate for prisoner housing. Budgets are based on historical data using population estimates and current rates. In recent years, other governments have been able to turn prisoners over the County more rapidly, reducing their costs as well as the County's collections.

Figure 20 Prisoner Housing Collection History

Board of Elections: The Board of Elections primarily collects fees for reimbursement of election costs from municipalities or from qualifying fees. This will vary from year to year depending on what elections are scheduled and whether they are reimbursable or not.

Court Fees: The Clerk of Court, Magistrate Court and Probate Court all charge fees for the various filings in their offices. Each line item is budgeted based on historical trends. Of note, the Probate Court traditionally ran all of its court business through the General Fund rather than having its own bank account as most courts do. In 2014, the Probate Court elected to create their own accounts and submit the amount due to the County monthly.

Animal Shelter Fees: The Lowndes County Animal Shelter charges fees for reclamations and adoptions which are designed to cover the costs of treatment and care of animals housed in the shelter. In budgeting for this line, historical trends, current populations and changes in rates are considered. At the end of fiscal year 2014, the local veterinarians announced an increase in the cost of services which resulted in an increase in the animal shelter fees beginning June 1, 2014.

LCSO - Jail Inmate Fees, Bond Fees, Investigations, Sheriff Fees, Credit Card Fees, Fingerprint Fees, Vehicle Usage Fees and Other: The Lowndes County Sheriff's Office charges a number of fees for various services and remits them to the County monthly. Fees from the Sheriff's Office are budgeted based on historical trends.

Culvert Fees: Lowndes County Public Works installs culverts for citizens in the unincorporated areas of the County at cost. Fees were adjusted significantly a few years ago to cover the cost; however, installations have declined in recent years with the additional cost and the slowdown in housing.

Commissary Fees: Commissary Fees are collected from inmates for the purchase of personal items from the Jail Commissary or Store. These revenues are maintained in the Commissary Fund and must be used for inmate benefit. Commissary fees are budgeted based on historical data.

911 Surcharges: Providers of telephone services, both landline and wireless, impose a surcharge for 911 services provided in Lowndes County. The current surcharge is \$1.50 per line. The 911 Center is a county wide service so all surcharges are remitted by the providers to Lowndes County. In recent years there has been a slight decline in landlines, due in part to a trend of eliminating home telephone services in favor of cellular service and the use of voice over IP systems.

Zoning Fees: The Lowndes County Unified Land Development Code (ULDC) defines land use in the unincorporated areas. From time to time, property owners may request changes in that use. The first meet with the Technical Review Committee (TRC) before their case is presented to the Greater Lowndes Planning Commission (GLPC) and finally the Board of Commissioners. Prior to 2007, Zoning was a joint service of the City of Valdosta and Lowndes County and was accounted for in an enterprise fund at the City.

Charges for Service:

Water & Sewer Usage Fees: Water and Sewer customers are charged monthly for use of Lowndes County utilities based on their consumption. The County has an automatic one percent annual rate increase built into its rate structure. The rate structure and anticipated customer based and usage determine the annual budget.

Figure 29 Water and Sewer Collection History

Motor Service Fees: The County Maintenance Shop provides fuel, and vehicle maintenance for all County vehicles and equipment as well as some other municipalities and authorities. In exchange for those services, a user charge based on historical costs is assessed to cover operation of the Shop.

Rent: Lowndes County collects rental revenues from a number of properties. The Human Resource Building, Old Administration Building and Leila Ellis are all rented based on square footage utilized and based on costs. Facilities such as the 4H Camp and Civic Center are rented for events. In the Fleet Manager Fund, the rent represents the amounts collected from each division with vehicles and equipment for the estimated maintenance costs for the year.

Revenue Sources and Assumptions

Resource Officer: The Lowndes County Sheriff's Office contracts with the Lowndes County Board of Education for the provision of Resource Officers in the schools. There is an annual contract for this service for budgeting purposes.

Fines and Forfeitures:

Fines and Forfeitures: Lowndes County receives monies from fines from the various courts. Although a majority of these fines are recognized in the General Fund, additional add-on fines are allocated to Drug Abuse Treatment, Jail Operations and Victim/Witness. Significant declines have been experienced in recent years. Forfeitures are accounted for in the Drug Seizure Fund which is maintained by the Sheriff's Office.

Miscellaneous:

Surplus Sales: From time to time, Lowndes County may have assets to declare surplus and sell. Budgeting for this line depends on the current fleet and condition. The County utilizes an online auction site, much like eBay, for most items. With the reduction in capital purchases in recent years, there has been a decline in the sale of items.

Fund Balance/Fund Equity History

1. **Commissary** - The Commissary Fund had seen a decline in fund balance for several years. Staff has worked closely with the Sheriff's Office to monitor the fund, ensuring that items are properly classified, resulting in an improved fund balance.
2. **Jail Operations** - Similar to the Commissary, the Jail Operations Fund has seen a decline in fund balance as well. Staff is again working with the Sheriff's Office to monitor costs. As fine revenues have continued to decline, some costs had to be moved back to the General Fund for FY 2015.
3. **Victim/Witness** - For many years, the 5% add-on fine for victim services was able to fund the District Attorney, Solicitor and The Haven. However, as expenditures continued to grow and fines began to decline, The Haven was eliminated. Since that time, the fund has been healthier, however, fluctuating revenues have an effect on fund balance from year to year.
4. **Special Services** - This fund continues to grow from year to year.
5. **Landfill** - As post-closure requirements are met and the Sanitation Fund has been eliminated, this fund balance will continue to increase.

During FY13, the County advance refunded that portion of the Series 2012 Lowndes County Judicial/Administration Complex Bonds maturing on June 1, 2024, in the aggregate principal amount of \$9,265,000. The net proceeds of \$9,519,341 were deposited with an escrow agent to provide all future debt service payments on the refunded bonds. The result of this transaction is a decrease in future debt service payments of \$1,505,442 and resulting in a net present value savings to the County of \$1,141,017. The refunded bonds are considered defeased.

Capital Improvements

As discussed in the Capital Improvement Plan Policy, the County's objective is to allocate approximately 8% of the annual General Fund budget toward the addition and replacement of capital assets. The purpose is to meet the capital needs of the County in a manner that is most beneficial to the citizens while balancing debt and cash flow needs. In previous years, capital purchases and improvements were lowered, causing the age and condition of the County's fleet of vehicles and equipment to diminish.

Due to the economy, the Board elected in 2009 to suspend those capital improvements for one year. The goal at that time was to reduce the millage rate for citizens of Lowndes County by holding a line, postponing capital investments and new personnel for one year. In each year since, the Board has elected to eliminate or significantly limit any capital purchases. To meet its capital needs, the Board has planned to use part of the special purpose local option sales tax to fund those purchases.

Fund	Department	Capital Item	Approved Amount	Impact on Operating Costs
General				
	County Clerk	County Website	\$28,114	The current county website is antiquated and difficult to update. A contract was signed with a web developer to create and maintain a new website that is much easier to maintain and update. The site will also automate a number of services that customers currently have to come in to complete. There is no additional cost to operate the site, however, it should save approximately \$5,000 annually through efficiencies.
	ITS	Computer Equipment	\$400,000	This is an annual replacement of equipment and should have no significant impact on operating costs.

General Fund				
	Facilities Maintenance	Renovations Webster St. Building -	\$30,000	The facility on Webster St. was acquired along with the Griner property. Once renovated, the facility will be able to house an office currently located elsewhere. We anticipate the operating costs of the facility to be approximately \$50,000 annually.
		Carpet, Paint at Human Resource Building	\$12,500	This facility is leased to the State of Georgia for use of Public Health and DFACS. As part of the annual upkeep, Public Works schedules replacement of some carpet and painting.
		A/C Units at Old Admin Building	\$28,000	The units at the Old Administration Building are exceeding their useful life and need to be replaced as the maintenance costs have continue to rise. Savings from replacement are anticipated at \$8,000 annually.
		Parking Lot Resurfacing at Old Admin Building	\$10,000	The parking lot at the Old Administration Building has some cracks and uneven areas. Engineering has determined a plan to resurface the lot to prevent falls or other accidents. There is no additional operating cost associated with this project.

	Facilities Maintenance	Replacement of Sea Wall and Roof Replacements at 4H Camp	\$8,500	Public Works has been bringing in dirt to fill in the sea wall at the 4H Camp for the past several years. This year, it will rebuild the wall, eliminating the need to bring in dirt, saving approximately \$5,000 annually. The roof replacements are part of the annual renovations to the 4H Camp.
		A/C Unit for Board of Elections	\$10,000	When the Board of Elections moved into the Old Department of Labor facility several years ago, the A/C units were in good condition but they are reaching their useful lives now. Savings on repairs should be approximately \$2,000 annually.
		Carpet for 2 nd Floor at the Governmental Building	\$7,500	When the Board of Commissioners purchased the Governmental Building from the bank several years ago, the Assessors' office was already housed in the building and the carpet was not replaced. This will finalize all carpet replacement in the facility.
	State Court	Office Suite for New Judge	\$9,000	Increases in caseload have necessitated the addition of a new state court judge. This line item will provide the furnishings necessary for the new position.
	Animal Control	New Animal Control Truck	\$21,000	Animal Control will add a new position in 2015 and a new vehicle will be necessary. Annual operating costs associated with the new vehicle are approximately \$7,500.

Capital Improvements

Fund	Department	Capital Item	Approved Amount	Impact on Operating Costs
General				
	Emergency Medical Services	Ambulance Replacement	\$100,000	This is an annual request from South Georgia Medical Center which operates the EMS service. There is no additional cost to Lowndes County.
	Extension Service	New Truck	\$30,000	The Extension Service will add a new County Extension Agent during 2015 and a new vehicle will be needed. Annual operating costs are estimated at \$5,500.
Emergency Communications				
	911 Center	Computer Equipment	\$47,886	This line item will be used to upgrade the servers and firewall at the 911 Center. The current equipment is past its useful life and the maintenance costs are increasing. Savings are anticipated at \$3,000 annually.
Water & Sewer				
	Water & Sewer Operation	Zero Turn Mower and Trailer	\$12,000	This mower will be used to maintain sites. Annual operating costs are anticipated to be \$1,500.
		F150 Service Trucks (4)	\$74,000	This is a replacement for older trucks that are still in service. Annual operating costs are anticipated to be \$6,000 each.
		Building Enclosure at LAS	\$15,000	Enclosing the equipment at the LAS will prevent damage from the elements, reducing maintenance costs by approximately \$1,500 annually.
		Shelving for Utility Office	\$9,500	Shelving for the office will allow additional storage on premise, reducing offsite storage costs by approximately \$1,000 annually.

Capital Improvements

Fund	Department	Capital Item	Approved Amount	Impact on Operating Costs
Water & Sewer				
	Water & Sewer Operations	Leak Finding Equipment	\$29,500	Thousands of dollars are lost annually due to leaks. This equipment will help find those leaks faster, saving approximately \$2,000 annually.
Landfill				
	Landfill	Methane Monitoring	\$30,000	This is part of the post closure costs for the landfill in Clyattville.
Equipment Maintenance				
	Fueling Center	Vacuum and Upgrade for Fuel Island	\$18,000	This is a renovation to the fuel island that serves all Lowndes County vehicles and equipment as well as some outside agencies. The upgrade will reduce maintenance costs, saving approximately \$2,500 annually.

Depreciation of all capital items is computed on a straight line basis with the following schedule of useful lives:

Description	Useful Life
Buildings and Building Improvements	40 - 100 Years
Improvements other than Buildings	40 Years
Machinery and Equipment	5 - 20 Years
Vehicles	6 - 20 Years
Infrastructure	5 - 50 Years

General Fund - Board of Commissioners

The Office of the Board of Commissioners is the legislative branch of the County government. The Board develops policy, hears requests from the public and other agencies and is responsible for the general goals and direction of the County.

The mission statement of the Board of Commissioners is as follows:

To provide and efficient, effective and responsive local government to all citizens of Lowndes County while maintaining the financial strength to meet any contingency

Each year at its retreat, the Board of Commissioners set goals for the next twelve to eighteen months for the County. In recent years, the Board adopted a “Back to Basics” philosophy that can be seen in their primary long-term and short-term goals and objectives.

Significant Accomplishments/Events:

- LOST negotiations settled by Supreme Court decision
- SPLOST VII was passed and has begun collections
- Three of the six sitting Board members elected to run for other offices, two finishing their terms at the end of 2014 and one having to resign, leaving one seat vacant for a portion of the year. As of the writing of this document, there is a runoff for the vacant seat.

Accommodation Excise Tax Fund - Tourism Authority & Airport Authority

The Hotel/Motel Tax Fund accounted for funds received for taxes on lodging and used for promotion of tourism and economic development. State law requires that 40% of the tax be used for promotion of tourism. In previous years, the remaining funds were allocated based on an intergovernmental agreement between Lowndes County and the City of Valdosta. For fiscal year 2008, the Industrial Authority began receiving a dedicated millage and was removed from the fund. The Arts Commission was added during that year. In January 2008, the City of Valdosta began collecting their portion of the accommodation excise tax. In January 2009, the City of Hahira began collecting their own portion.

Intergovernmental Grants Fund

The Intergovernmental Grants Fund accounts for the receipt and disbursement of grant funds by program. Included in Intergovernmental Grants is reimbursement for payroll expenditures for Alternative Dispute Resolution. Lowndes County processes the payroll for this entity and is reimbursed fully. In prior years, the Airport Authority and the LODAC HUD Grant were treated the same way. Those employees have since been removed from the County's payroll.

Jail Operations Fund - Sheriff - Jail

The Jail Operations Fund accounts for the expenditures incurred in staffing, maintenance and operations of the Lowndes County Jail. The funding comes from add on fines administered by the courts. As costs have increased, the fund balance has been nearly depleted. However, in recent years, the fund has shown an improvement.

Drug Abuse Treatment Fund - LODAC

The Lowndes County Drug Action Council (LODAC) provides drug abuse treatment services. The office provides information, education, intervention, prevention and treatment for adolescents with high-risk behaviors as well as adults. LODAC is working with the courts and grant providers to address the deficit fund balance as well as controlling expenditures. This program was removed from the County's payroll and payables system and will receive a monthly check for its budgeted appropriation.

Emergency Communications Fund - 911 Operations

The 911 Operations Center is the backbone of emergency communications in Lowndes County. The center takes calls and dispatches emergency services for the County, municipalities, Emergency Medical Services and Echols County.

Significant Accomplishments/Events:

- Completed replacement of old 911 telephone system with next generation computer based 911 telephone system

Division Goals:

- Comply with the Georgia Emergency Management Agency (GEMA) standard to answer 90% of received 911 calls within 10 seconds (two to three rings) **CGIII, CGIV**
- Maintain a customer satisfaction rating of 97% or better with less than three formal complaints noted as founded **CGIII, CGIV**
- Reduce turnover rate by 2% annually **CGIII, CGIV**
- Maintain sufficient manning to handle an average exceeding 615 call for service daily with regular spikes of 700 and 800 plus **CGIII, CGIV**
- Replace batteries in UPS located at the 911 Center to ensure continued integrity **CGIII, CGIV**

Division Objectives:

- To provide quality service, with regard to safety and protection, of our emergency service personnel
- To provide the citizens of greater Lowndes County with a timely and accurate communications link to emergency response services and, when appropriate, assist with the resolution of the citizen's emergency
- To maintain CALEA accreditation
- To operate and maintain the Public Safety Radio System with minimal interruptions of service
- To continue to maintain a high level of standards and training of 911 Center personnel with an emphasis on supporting the growth of the individual

Victim/Witness Fund

Victim/Witness funds are administered by the courts and are to be used for victim services. The funds are allocated to the Office of the District Attorney who shares them with the Solicitor General's Office. In previous years, the monies were also shared with The Haven, a shelter for battered women. The agencies involved are working with the courts to bring fine monies back up and eliminate the deficit.

Equipment Maintenance Fund - Shop

The Equipment Maintenance fund is made up of two divisions. The Maintenance Shop accounts for the costs incurred in operating and maintaining the equipment shop which provides maintenance work for all county vehicles and equipment as well as some outside agencies while the Fuel Center accounts for the costs incurred in operating and maintaining the County's centralized fuel center.

Division Goals:

- ④ Maintain EVA certification for shop employees *CGIII, CGIV*
- ④ Provide sixteen hours monthly of training for personnel *CGIII, CGIV*
- ④ Utilize community service workers for detailing vehicles and equipment *CGIII, CGIV*
- ④ Track and reduce downtime by 10% *CGIII, CGIV*

Division Objectives:

- ④ To provide maintenance service for all county vehicles and equipment
- ④ To extend the service life and efficiency of all county vehicles and equipment
- ④ To provide a centralized fueling system for all vehicles and equipment
