COUNTY ACTION REQUESTED ON: Purchase of New Anti-Virus Software

---

HISTORY, FACTS AND ISSUES: Lowndes County currently has Kaspersky Anti-Virus software. In December 2017, the Federal Government banned all use of Kaspersky software for federal agencies and recommended that all state and local government stop using the product. The quote is for the purchase of a US based anti-virus software for all desktops and servers, that includes the software and one year of maintenance. After the first year, as with other anti-virus software, an annual maintenance fee would be assessed.
